You will learn and apply participatory tools and methods working on the cases of Apartadó, Dawei and Ahero Town, three cities in Colombia, Myanmar and Kenya.

USING VIRTUAL REALITY TECHNIQUE

We will travel to the cities and explore solutions and institutional changes with the goal of improving life quality of all stakeholders identified in the cities.

WE WILL

Analyse casual aspects and identify stakeholders in the cities.

Develop inclusive and integrated solutions from a multi-stakeholder perspective.

Identify how to reach the proposed solutions through cross-sectorial collaboration.

PLEASE BRING A SMART PHONE TO THE EVENT!

If possible, please download the app GOOGLE STREET VIEW and ROUNDME prior to the event since this will be used for our VR-exercise.
