

How Can Cities Achieve the Sustainable Development Goals?

BREAKFAST SEMINAR 9:00-10:20
October 11th 2018 at Sida, Stockholm

SPEAKERS

The Sustainable Development Goals (SDGs) endorse, for the first time, a stand-alone goal on urbanisation and city growth as a transformative force for development. Goal 11 of the SDGs aims to "make cities and human settlements inclusive, safe, resilient, and sustainable."

In this seminar, we aim to critically examine the progress that cities worldwide have made towards achieving the SDGs. With a focus on issues of gender equity, environmental resilience, and urban poverty reduction, the seminar will aim to animate the key challenges cities face in moving towards the fulfilment of SDGs.

BELAY FILE GAROMA, National Urban Expert for SymbioCity Ethiopia; associate professor in Urban & Development Economics at Ethiopian Civil Service University

KATRIN STJERNFELDT JAMMEH, Mayor of Malmö; member of SALAR's board and the Swedish Government's Delegation for Agenda 2030

PROF. DAVID SIMON, Director of Mistra Urban Futures; Professor at Royal Holloway, University of London

HELENA OHLSSON, Urban Specialist at SKL International; formerly with UN-Habitat Afghanistan

Moderated by **MATS JARNHAMMAR**, Managing Director of Living Cities; associated consultant at SKL International
