

Tender document Artificial Wetland Expert

Please find attached ToR for an international Artificial Wetland Expert to design an artificial wetland in Ahero, Kenya.

Background

The assignment is part of a multi-year programme carried out by SKL International and the Kenyan Council of Governors with the overall objective to improve the urban planning capacity in Kenya. As part of the programme urban change projects will be carried out in seven counties (Homa Bay, Kakamega, Kisumu, Kitui, Meru, Nakuru and Trans Nzoia), which have been developed through a participative and inclusive process based on the SymbioCity methodology. The assignment will be based on the existing Project Proposal developed by the county team and have access to national experts.

How to apply

Interested applicants are welcome to send in their submissions by e-mail to Kristin.jonsson.strandberg@skl.se and info@symbiocitykenya.org no later than **November 7th 2018** including:

- Curriculum vitae
- Fee expectation
- Profile clearly indicating relevant background and a motivation to why you fit the assignment
- Indication of availability to carry on the assignment in November/December 2018
